

Spanish X-ray Astronomy 2019: present, future and synergies

Alicante, SPAIN, 26-28 November

Venue & Accommodation

[University of Alicante](#) Campus, Sant Vicent del Raspeig, Building “Germà Bernàcer”, Main Lecture room (downstairs).

The most convenient way to reach the campus, from the Alicante airport, is by taxi (around 15 minutes, 25-30 Euro, licensed taxis line up just at the exit door). The Alicante airport is served by a number of companies with direct flights from many European cities. You also can take the C6 bus line from Alicante airport terminal building to downtown Alicante every 20 minutes (at night every hour, from 00:00 am to 05:00 am). It stops at Luceros and Mercado TRAM stations (lines 1, 2, 3 and 4), and at RENFE station.

Alicante is also well connected by train from Madrid and Barcelona, many trains per day. A fast and very convenient way to get Alicante is on the AVE high-speed train. This connects the city of Alicante with Madrid in 2 hours and 30 minutes. Unfortunately, a ride from Barcelona takes up to five hours. The RENFE train station is in the city centre at Avenida de Salamanca 1.

Alicante has a wide offer of hotels. We can recommend the following:

The [Villa Universitaria](#) is conveniently located at walking distance (12 minutes) from the meeting venue. Ask for the Suites. Although it is a student's lodging, its Suites are used as well by many senior visitors. Offers meal service.

[Hotel Eurostars Lucentum](#) is located in Alicante downtown, in front of the old food Central Market. The University of Alicante Campus can be reached by the Tram (27 minutes), using Line 2, with a train every 15 minutes, by bus line 24 at San Vicente 20 or by taxi (15 minutes, 15 Euro).

[Hotel Porta Maris](#) is located next to the Postiguet beach and seaport. To reach University of Alicante Campus you need to walk to Hotel Eurostars Lucentum and then take the Tram (as above) or take a taxi.

Network connection

It will be provided by eduroam. Please install the required certificates in your computers. If you are not able to install eduroam let us know well in advance.
